

## Show Bench List - Hardy Fuchsias

This is the current BFS Show bench list of Hardy Fuchsias. Only those on the list can be entered in Hardy Classes in BFS National Shows.

PLEASE NOTE - this list is for the Show Bench only and is not a botanical listing.

This list is the up to date list for 2024. The list will also be in the 2024 BFS show schedules and if updated, supersedes the list in the back of the 2023 Exhibitors, Judges and Stewards Rulebook and Guidelines. Varieties marked with an \* are new additions for this year.

Revisions of this list will take place annually, if necessary. Should any interested reader want to alter the list, contact should be made in writing, with the BFS Show Committee before September 30th of each year. Any cultivar suggested for the Hardy List must have survived at least five consecutive winters and begun to flower in July or early August.

Its presence on the list does not necessarily mean that the fuchsias listed will survive, when left in the ground, through every winter, in every corner of the United Kingdom.
