

Show Bench List - Species Fuchsias

This is the current BFS Show bench list of Species Fuchsias. Only those on the list can be entered in Species Classes in BFS National Shows.

PLEASE NOTE - this list is for the Show Bench only and is not a botanical listing.

This list is the up to date list for 2024. The list will also be in the 2024 BFS show schedules and if updated, supersedes the list in the back of the 2023 Exhibitors, Judges and Stewards Rulebook and Guidelines. Varieties marked with an * are new additions for this year.

Revisions of this list will take place annually, if necessary. Should any interested reader want to alter the list, contact should be made in writing, with the BFS Show Committee before September 30th of each year. Notice of any changes will be published in the BFS Spring Bulletin.
